

ADDENDUM NO 04  
CITY OF FAIRHOPE

to

**Bid 028-12**

**Renovations to 1700 SF Children's Pool**

The bid documents for this Bid shall be amended, revised and changed in the following particulars provided by the Engineer of Record:

**Questions from potential bidders:**

**Question 1:**

"Remove and replace existing concrete deck-Per the job specs all this work must be done by hand. My concern is how thick is the concrete on the existing deck?"

**Answer 1:**

Concrete deck is to be estimated using 6" thick for removal.

**Question 2:**

"Plumbing-It is my understanding that there are no "as built" drawings for this pool. It is my experience that there will be racks of pipe that will have to be removed in order to removal all existing fill. We will essentially be re-plumbing the entire pool"

**Answer 2:**

Existing plumbing can be reused, but must be replaced if damaged during concrete removal or excavation.

**Question 3:**

"There is at least one crack in the narrow shallow portion of the pool. Is there any consideration for this repair in original project or this repair to be handled on a change order?"

**Answer 3:**

An allowance is established to handle any unforeseen conditions such as sub-par conditions under small crack in pool.

**Responders are to sign and include signed Addendum No. 2 with submitted bid documents.**
