ITEM V
CONTRACT

This CONTRACT is made this ______ day of ____________________, by and between the
City of Fairhope (hereinafter "OWNER") and
____________________ (hereinafter "CONTRACTOR"), on the CITY
OF FAIRHOPE PROJECT NO. 03S-11, SIDEWALK IMPROVEMENTS 2011, FEDERAL AID
PROJECT No. STMTE-TE9 (978). The OWNER and the CONTRACTOR agree as set forth
below:

1. The contract consists of all of the items contained within this bid package.

2. The CONTRACTOR shall perform all the WORK described herein.

3. The WORK to be performed under this CONTRACT shall be commenced upon
execution of this CONTRACT within ten (10) days of the date specified in a Notice to Proceed (NTP)
to be issued to the Contractor by the Owner, or its authorized representative. The work shall be
completed, subject to authorized adjustments, within Thirty (30) working days from and after the
commencement date stipulated in said Notice to Proceed. Liquidated damages for non-completion
of the work within this time limit will be assessed at the rate of $200 per working day.

4. The OWNER shall pay the CONTRACTOR in current funds for the performance of
the WORK, the CONTRACT SUM of ____________________________
__________________($ ). The CONTRACTOR shall submit to the OWNER, on or
before the 5th day of each month, an estimated total for work performed in the previous month. The
OWNER will hold back 5% of each monthly estimate until 50% completion of the work. The
contractor shall, immediately after the completion of the contract, give notice of the completion by an
advertisement in a newspaper of general circulation published within the city or county in which the
work has been done, for a period of four successive weeks. A final settlement shall not be made
upon the contract until the expiration of 30 days after the completion of the notice. Proof of the
publication of the notice shall be made by the CONTRACTOR to the OWNER by affidavit of the
publisher and a printed copy of the notice published.
5. The CONTRACTOR shall not commence work under this CONTRACT until it has purchased INSURANCE for protection from any and all claims that may arise out of or result from the CONTRACTOR'S operations under the CONTRACT. The CONTRACTOR shall maintain the required insurance in the minimum amounts as described in Item IV.

6. To the fullest extent permitted by law, the CONTRACTOR shall indemnify and hold harmless the OWNER, and its agents and employees from and against all claims, damages, losses and expenses, including, but not limited to, attorneys' fees arising out of or resulting from the performance of the WORK.

7. The CONTRACTOR has thoroughly and completely inspected the premises, and hereby agrees to perform the WORK for the CONTRACT SUM.

8. The CONTRACTOR warrants to the OWNER that all materials furnished under this CONTRACT will be new, and that all work will be of a good quality, free from faults and defects and in conformance with the CONTRACT DOCUMENTS. All WORK not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective. If required by the OWNER, the CONTRACTOR shall furnish satisfactory evidence as to the kind and quality of materials.

9. The CONTRACTOR shall promptly correct all WORK rejected by the OWNER as defective or failing to conform to the CONTRACT DOCUMENTS. The CONTRACTOR shall bear all costs of correcting such rejected WORK, regardless of whether the WORK is fabricated, installed or completed.

10. The CONTRACTOR shall remove from the site all portions of the WORK which are defective or non-conforming and which have not been corrected, unless removal is waived by the OWNER.

11. If the CONTRACTOR fails to correct defective or nonconforming WORK within a reasonable time fixed by written notice from the OWNER, the OWNER may correct and the CONTRACTOR shall bear the cost of making good all work of the OWNER or separate contractors.
12. If the OWNER prefers to accept the defective or nonconforming WORK, the OWNER may do so instead of requiring its removal and correction, in which case a reduction in the CONTRACT SUM shall be effected whether or not final payment has been made. The reduction shall be equitable and appropriate.

13. If the CONTRACTOR fails to correct defective WORK as set forth above or persistently fails to carry out the WORK in accordance with the CONTRACT DOCUMENTS, or fails to supply enough properly trained workers or proper materials or disregards laws, ordinances, rules or regulations, the OWNER, by a written order signed by its authorized agent, may order the CONTRACTOR to stop the WORK. If the CONTRACTOR fails within the seven (7) days after receipt of written notice to commence corrective action, the OWNER may, after seven (7) days follow the receipt of an additional written notice, and without prejudice to any other remedy of the OWNER, terminate employment of the CONTRACTOR and take possession of the site and of all materials thereon, and may finish the work by whatever methods the OWNER finds expedient.

14. If, within one (1) year after acceptance of the WORK by the OWNER, or within such longer period of time as may be prescribed by law or by the terms of any applicable special warranty required by the CONTRACT DOCUMENT, any of the WORK is found to be defective or not in conformity with the CONTRACT DOCUMENTS, the CONTRACTOR shall correct it promptly after receipt of a written notice from the OWNER to do so unless the OWNER has previously given the CONTRACTOR a written acceptance of such condition. This obligation shall survive both final payment for the WORK and termination of the CONTRACT. The OWNER shall give such notice promptly after discovery of the condition.

15. If the CONTRACTOR is delayed at any time in the progress of the WORK by any act or neglect of the OWNER, any of its employees, labor disputes, fire, unusual delay in transportation, adverse weather conditions not reasonably anticipatable, unavoidable casualties, or any causes beyond the CONTRACTOR’S control, the CONTRACT time shall be extended to such reasonable time as the OWNER may determine.
16. The CONTRACTOR shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the WORK. The CONTRACTOR shall perform the WORK in a manner that allows the OWNER to the maximum extent possible to continue its daily operations on the premises.

17. The CONTRACTOR shall at all time keep the premises free from accumulation of waste materials or rubbish caused by the CONTRACTOR'S operations. At the completion of the WORK, the CONTRACTOR shall remove all the CONTRACTOR'S waste materials and rubbish from and about the PROJECT as well as all the CONTRACTOR'S tools, construction equipment, machinery and surplus materials. If the CONTRACTOR fails to clean up at the completion of the WORK, the OWNER may do so and the cost thereof shall be charged to the CONTRACTOR.

18. WRITTEN NOTICE shall be deemed to have been duly served if delivered in person to the individual or member of the firm or entity or to an officer of the corporation for whom it was intended, or if delivered at or sent by registered or certified mail to the last business address known to the party giving the notice.

19. The duties and obligations imposed by the CONTRACT DOCUMENTS and the RIGHTS AND REMEDIES available there under shall be in addition to, and not a limitation of, any duties, obligations, rights and remedies otherwise imposed or available by law.

20. Should either party to the CONTRACT suffer injury or damage to person or property because of any act or omission of the other party or of any of the other party's employees or agents, claim shall be made in writing to such other party within a reasonable time after the first observance of such injury or damage.

21. The OWNER and CONTRACTOR, respectively, bind themselves, their partners, successors, assigns and legal representatives to the other party hereto and to the partners, successors, assign and legal representatives of such other party with respect to all covenants, agreements and obligations contained in the CONTRACT DOCUMENTS. Neither party to the CONTRACT shall assign the CONTRACT or sublet it as a whole without the written consent of the other.

The prospective primary participant shall provide immediate written notice to the department or agency to whom this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The terms "covered transaction", "debarred", "suspended", "ineligible", "lower-tier covered transaction", "participant", "person", "primary covered transaction", "principal", "proposal" and "voluntarily excluded" as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower-tier covered transaction with a person who is debarred, suspended, declared ineligible or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion/Lower-Tier Covered Transactions," provided by the department or agency entering into this covered transaction, without modification, in all lower-tier covered transactions and in all solicitations for lower-tier covered transactions.

A participant in a covered transaction may rely upon a certification of a prospective participant in a lower-tier covered transaction that it is not debarred, suspended, ineligible or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Except for transactions authorized under these instructions, if a participant in a covered transaction knowingly enters into a lower-tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Certification Regarding Debarment Suspension and Other Responsibility Matters - Primary Covered Transactions

The prospective primary participant certifies, to the best of its knowledge and belief, that it and its principals:

- Are not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from covered transactions by any Federal department or agency;

- Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property;

- Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in the preceding paragraph of this
certification; and have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

B. For Lower-Tier Requirements, see Section XI of "Required Contract Provisions Federal-Aid Construction Contracts" located in the proposal.

Exceptions to the above are to be submitted on a separate sheet with the bid proposal. For any exception noted, indicate to whom it applies, initiating agency and dates of action. Providing false information may result in criminal prosecution or administrative sanctions.

5. LOBBYING RESTRICTIONS

These restrictions were established by Section 319 of Public Law 101-121, Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1990.

The contractor certifies to the best of his/her knowledge and belief that:

A. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement and the extension, continuation, renewal, amendment or modification of any Federal contract grant, loan or cooperative agreement.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file this required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The contractor also agrees by submitting this proposal that he/she shall require that the language of this certification be included in all lower-tier subcontracts which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

I further certify that I am a properly authorized individual or corporate official, as applicable, to make this certification that the above is true and correct; and that I recognize, by signing this certification, I am also signing the contract proposal on behalf of the contractor in whose name the proposal is made, whether individual, partnership, or corporation as might be applicable.

Special Provision No. 08-0097

SUBJECT: Required Contract Provision for all Federal Aid Projects for Equal Employment Opportunity

Alabama Standard Specifications, 2008 Edition, are hereby amended to include the following:

In compliance with Executive Order 11246, the following Standard Federal Equal Opportunity Construction Contract Specifications shall apply:

General Requirements
(41 CFR 60-4.3)

1. As used in these specifications:
   a. "Covered area" means the geographical area described in the solicitation from which this contract resulted;
   b. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;
   d. "Minority" includes:
      (i) Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);
      (ii) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);
      (iii) Asian and Pacific Islander (all persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent or the Pacific islands); and
      (iv) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

2. Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract, in excess of $10,000, the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.

3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U.S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered Contractor's or Subcontractor's failure to take good faith efforts to achieve the Plan goals and timetables.

4. The Contractor shall implement the specific affirmative action standards provided in paragraphs 7a through 7p of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction
trade in which it has employees in the covered area. Covered construction contractors performing construction work in geographical areas where they do not have a federal or federally-assisted construction contract shall apply the minority and female goals established for the geographical area where the work is being performed. Goals are as shown on Attachment No. 1. The Contractor is expected to make substantially uniform progress in meeting its goals in each craft during the period specified.

5. Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor’s obligations under these specifications. Executive order 11246 or the regulations promulgated pursuant thereto.

6. In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

7. The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor’s compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document those efforts fully and shall implement affirmative action steps at least as extensive as the following:

a. Ensure and maintain a working environment free of harassment, intimidation and coercion at all sites, and in all facilities at which the Contractor’s employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents and other on-site supervisory personnel are aware of and carry out the Contractor’s obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.

b. Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organization’s responses.

c. Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant, and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason therefore, along with whatever additional actions the Contractor may have taken.

d. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor’s efforts to meet its obligations.

e. Develop on-the-job training opportunities and/or participate in training programs for the areas which expressly include minorities and women, including upgrading programs, and apprenticeship and trainee programs, relevant to the Contractor’s employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under (b) above.

f. Disseminate the Contractor’s EEO policy by providing notice of the policy to unions and training programs and requesting their co-operation in assisting the Contractor in meeting its EEO obligations by including it in any policy manual and collective bargaining agreement, by publicizing it in the company newspaper, annual report, etc., by specific review of the policy with all management personnel and with all minority and female employees at least once a year, and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

g. Review at least annually the company’s EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc. prior to
the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

i. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures and tests to be used in the selection process.

j. Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's workforce.

k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.

l. Conduct at least annually an inventory and evaluation of at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

m. Ensure that seniority practices, job classifications, work assignments and other personnel practices do not have a discriminatory effect by continually monitoring all personnel and employment-related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

n. Ensure that all facilities and company activities are nonsegregated, except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

o. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

p. Conduct a review, at least annually, of all supervisions, adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

8. Contractors are encouraged to participate in voluntary associations that assist in fulfilling one or more of their affirmative action obligations (7a through 7p). The efforts of a contractor association, joint contractor-union, contractor-community or other similar group of which the Contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under 7a through 7p of these Specifications provided that the Contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

9. A single goal for minorities and a separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contract may be in violation of the Executive Order if a specific minority group of women is under-utilized).

10. The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex or national origin.

11. The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.
12. The Contractor shall carry out such sanctions and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of the Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

13. The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of these specifications, so as to achieve maximum results from its efforts to ensure equal employment opportunity. If the Contractor fails to comply with the requirements of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

14. The Contractor shall designate a responsible official to monitor all employment-related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee the name, address, telephone numbers, construction trade, union affiliation if any, employee identification number when assigned, social security number, race, sex, status (e.g. mechanic, apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree existing records satisfy this requirement, contractors shall not be required to maintain separate records.

15. Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g. those under the Public works Employment Act of 1977 and the Community Development Block Grant Program).

Hometown Plans
(41 CFR 60-4.2)

(a) A contractor participating, either individually or through an association, in an approved Hometown Plan (including heavy highway affirmative action plans) shall comply with its affirmative action obligations under Executive Order 11246 by complying with its obligations under the plan: Provided, that each contractor or subcontractor participating in an approved plan is individually required to comply with the equal opportunity clause set forth in 41 CFR 60-1.4; to make a good faith effort to achieve the goals for each trade participating in the plan in which it has employees; and that the overall good performance by other contractors or subcontractors toward a goal in an approved plan does not excuse any covered contractor's or subcontractor's failure to take good faith efforts to achieve the Plan's goals and timetables. If a Contractor is not participating in an approved Hometown Plan it shall comply with the Specifications set forth in §600-4.3 of this part and with the goals and timetables for the appropriate area as listed in the Notice required by 41 CFR 4.2 with regard to that trade. For the purposes of this part 60-4, the contractor is not participating in a Hometown Plan for a particular trade if it:

(1) Ceases to be signatory to a Hometown Plan covering that trade.
(2) Is signatory to a Hometown Plan for that trade but is not party to a collective bargaining agreement for that trade:
(3) Is signatory to a Hometown Plan for that trade but is party to a collective bargaining agreement with labor organizations which are not or cease to be signatories to the same Hometown Plan for that trade.
(4) Is signatory to a Hometown Plan for that trade and is party to a collective bargaining agreement with labor organization for that trade but the two have not jointly executed a specific commitment to minority and female goals and timetables and incorporated the commitment in the Hometown Plan for that trade:
(5) Is participating in a Hometown Plan for that trade which is no longer acceptable to the Office of Federal Contract Compliance Programs:
(6) Is signatory to a Hometown Plan for that trade but is party to a collective bargaining agreement with a labor organization for that trade and the labor organization and the

Except as otherwise provided for in each section, the contractor shall insert in each subcontract all of the stipulations contained in these Requirements for Pre-determined Materials and, further require their insertion in any lower tier subcontract or purchase order that may in turn be made.    Section 1, paragraph 1; Section 4, paragraphs 1, 2, 3, 4, and 7; Section V, paragraphs 1 and 2a through 2g.

5. Such disputes shall be resolved in accordance with the procedures of the U.S. Department of Labor (DOL) as set forth in 29 CFR 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the DOL, or the contractor's employees or their representatives.

6. Selection of Labor: During the performance of this contract, the contractor shall:

   a. discriminate against labor from any other State, possession, or territory of the United States (except for employment preference for Appalachian contracts, when applicable, as specified in Attachment A); or

II. NONDISCRIMINATION

(Applicable to all Federal-aid construction contracts and to all related subcontracts of $10,000 or more.)

1. 4. That the firm agrees to include or cause to be included the requirements of paragraph 1 through 4 of this Section X in every nondisputable contract, subcontracts, or agreements to be formed or to be performed, and the government may direct as a means of enforcing such requirements.

XI. CERTIFICATION REGARDING DISABILITy, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

1. Instructions for Certification - Primary Covered Transactions:

(Applicable to all Federal-aid contracts - 49 CFR 20)

a. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, it is prima facie evidence that the Federal Government, the department or agency may terminate this
transaction for cause of default.

d. The prospective primary participant shall provide immediate written notice to the department or agency to whom this proposal is submitted if any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is submitted for assistance in obtaining a copy of these regulations.

f. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

g. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, declared ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the nonprocurement portion of the "List of Parties Excluded From Federal Procurement or Nonprocurement Programs" (List of Excluded Parties List) which is compiled by the General Services Administration.

i. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph f of this clause, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless it knows that the certification is erroneous, by reason of changed circumstances.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Primary Covered Transactions

1. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

ATTACHMENT A - EMPLOYMENT PREFERENCE FOR
APPALACHIAN CONTRACTS
(Applicable to Appalachian contracts only.)

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

   a. To the extent that qualified persons regularly residing in the area are not available.

   b. For the reasonable needs of the contractor to employ supervisory or specialty experienced personnel necessary to assure an efficient execution of the contract work.

   c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph 1c shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph 4 below.

2. The contractor shall place a job order with the State Employment Service indicating:

   a. the classifications of the laborers, mechanics and other employees required to perform the contract work,

   b. the number of employees required in each classification,

   c. the date on which he estimates such employees will be required, and

   d. any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, he shall promptly notify the State Employment Service.

3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.

4. If, within 1 week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph 1c above.

Alabama Department of Transportation Specifications
ALABAMA DEPARTMENT OF TRANSPORTATION

DATE: May 29, 2008
Special Provision No. 08-0113

EFFECTIVE DATE: August 1, 2008

SUBJECT: Traffic Control.

Alabama Standard Specifications, 2008 Edition, SECTION 740 shall be revised as follows:

SECTION 740
TRAFFIC CONTROL DEVICES FOR CONSTRUCTION WORK ZONES

740.03 Construction Requirements.
(a) GENERAL.
This Subarticle (740.03(a)) shall be replaced by the following:

(a) TRAFFIC CONTROL PERSONNEL, DEVICES, EQUIPMENT AND TRAINING.

1. CONTRACTORS EMPLOYEES RESPONSIBLE FOR TRAFFIC CONTROL.

The Contractor shall assign an employee to have the primary responsibility and sufficient authority for the implementation and maintenance of traffic control operations. This employee shall have the responsibility of making modifications to the traffic control that may be necessary because of changing circumstances during construction. The Contractor shall also assign an employee to be available during non-work hours to respond to calls involving the maintenance of traffic control devices. The Contractor shall provide the Department with the contact information in writing for these employees at the preconstruction conference. The Contractor shall also notify the local law enforcement agency in writing with a copy to the Project Engineer of the contact information for these employees.

2. INSTALLATION OF TRAFFIC CONTROL DEVICES AND EQUIPMENT:

All traffic control devices necessary for the first stage of construction shall be properly placed and in operation before any construction is allowed to start. When work of a progressive nature is involved, such as resurfacing a road under traffic, the necessary signs shall be moved concurrently with the advancing operation.

All construction signs shall be erected in a workmanlike manner such that all supports are vertical, sign panels generally perpendicular to the travelway and legends horizontal so that they effectively convey the intended message. These signs shall be mounted on stationary or temporary supports as directed by the Engineer and dependent on the type work being performed. In general, work being performed at spot locations and of short duration will necessitate the use of temporary supports properly ballasted for stability. If the construction signs are not to be lighted, the supports shall not extend above the top edge of the sign panel.

The location, legends, sheeting, dimensions, spacing of supports, and horizontal and vertical placement with respect to the pavement of warning signs, barricades and other traffic control devices shall be as required by plan details, MUTCD and as directed or approved by the Engineer. The Contractor must advise and have the approval of the Engineer prior to installing or removing traffic control devices from the project.

3. MOVING AND COVERING TRAFFIC CONTROL SIGNS AND OTHER DEVICES WHILE NOT IN USE.

During periods when signs and other devices are not being used for traffic control they shall be removed from the work area, covered with the specified material or otherwise positioned so they do not convey their message to the traveling public. If covered, the covering material shall be 1/2

Topsoil may include sod, but not tall vegetation or other debris, and shall be kept free from subsoil. It shall be stockpiled in approved locations with each stockpile not less than 4 feet [1.2 m] high, and containing not less than 200 hundred cubic yards [150 m³]. Each stockpile shall be shaped as necessary to permit accurate cross sections. The work of removal and stockpiling of topsoil will be paid for as Unclassified Excavation.

ALABAMA DEPARTMENT OF TRANSPORTATION

DATE: July 14, 2011

EFFECTIVE DATE: September 1, 2011

SUBJECT: Vegetation Establishment.

Alabama Standard Specifications, 2008 Edition, shall be amended by deleting Section 651, replacing Section 652, replacing Section 654 and revising Section 860 as follows:

SECTION 651
GROUND PREPARATION FOR PLANTING VEGETATIVE COVER

This Section shall be deleted from the Standard Specifications.

SECTION 652
GROUND PREPARATION, VEGETATION ESTABLISHMENT AND MOWING

652.01 Description.

This Section shall cover ground preparation work and the work of establishing an acceptable permanent stand of vegetation of the species designated for establishment. This section also covers mowing of vegetated areas.

652.02 Materials.

Materials (seed mixes, mulch, fertilizer, etc.) shall be furnished in compliance with the requirements given in Section 860.

652.03 Construction Requirements.

(a) CONSTRUCTION SEQUENCE.

The required sequence and timing of the placement of permanent seeding during excavation and embankment construction is given in Article 210.03. The Engineer may direct, even to the exclusion of other operations, that the Contractor promptly complete grading and ground preparation to allow the establishment of permanent vegetation in areas where it is necessary for the control of erosion and sediment.

(b) SEED MIXES FOR THE ESTABLISHMENT OF PERMANENT VEGETATION.

The appropriate seed mix shall be chosen from tables in Section 860. The appropriate seed mix is based on planting zone, planting date, and type of area to be seeded. Seed mixes of a temporary nature are required in some areas of the State when permanent seed mixes are out of season. These mixes are shown in Section 860 as requiring seeding in stubble for the establishment of the required permanent plant.

(c) INSPECTION.

The Contractor shall notify the Project Engineer at least 48 hours in advance of any work related to seeding. This includes the mixing of seed as well as the sowing of seed. The Contractor shall notify the Engineer of the proposed type of seed mix or mixes to be incorporated into the project prior to beginning seeding operations. Seeding work shall not begin prior to the measurement of the area to be seeded. All work shall be performed in the presence of the Engineer.
(d) PREPARATION AND PLANTING IN SOFT SOIL.

1. GROUND PREPARATION.

After grading and topsoil placement and prior to ground preparation, the Contractor shall remove all boulders, stumps, roots, or other objects with any dimension larger than 2 inches (50 mm). Topsoil shall meet the requirements given in Section 650.

Ground preparation shall consist of cultivating the topsoil to a loose depth of at least 4 inches (100 mm) except on slopes 2:1 or steeper. The plowing, harrowing, cultivating, and all other operations shall be performed with proper equipment and in such a manner as to break up all clods.

The ground shall be plowed to the required depth and then cultivated with a rotary tiller or disk harrow, in crossing directions if necessary, until the result is a smooth, uniform, loose, and well broken soil providing a suitable bed for seed. In small or inaccessible areas the use of hand tools will be permitted. The Contractor shall add water as necessary to provide sufficient soil moisture to prepare the ground.

All trash and other debris shall be removed from the cultivated topsoil. All pieces of wood, rocks and unbroken clumps of earth with any dimension larger than 2 inches (50 mm) shall be removed from the planting area.

2. INITIAL SOIL AMENDMENTS.

The initial fertilization shall be a commercial fertilizer that will provide at least 120 pounds (135 kg) of N, 120 pounds (135 kg) of P2O5, and 120 pounds (135 kg) of K2O per acre (hectare), as computed from the nominal contents of fertilizer elements. Only one half of this rate shall be applied when the required seeding is Annual Ryegrass. Agricultural limestone (lime) shall be applied prior to seeding at a rate of two tons per acre (4.5 metric tons per hectare). Lime may be applied in dry, pelletized or slurry form. The rate of application is required regardless of the form of application.

The required rates of placement of fertilizer and lime may increase as directed by the Engineer based on the results of the testing of the Topsoil from Stockpiles as described in Article 650.02. Additional fertilizer and lime for Topsoil from Stockpiles will be paid for separately in accordance with the requirements given in Article 652.05. Reductions in rates will result in a price adjustment for seeding.

Fertilizers and agricultural limestone (lime) shall be applied uniformly at the required rates of placement. The fertilizer shall be well pulverized and free of lumps when applied. In no case shall fertilizer that is not mixed with soil be permitted to be in direct contact with seed. When fertilizers are applied hydraulically they shall be diluted sufficiently so that no damage is done to either seed or established vegetation. Agricultural limestone, basic slag or a combination of limestone and slag shall be applied separately but may be incorporated into the soil with fertilizers in one operation.

Fertilizer and agricultural limestone that is not applied hydraulically shall be uniformly mixed with the soil by harrows, rotary tillers, or other soil mixing equipment prior to subsequent operations. Mixing with the soil will not be required when the fertilizer and agricultural limestone is applied hydraulically.

3. SOWING SEED.

Mechanical or hydraulic seeders shall be used for sowing unless approved otherwise by the Engineer.

Sowing shall not be performed during windy weather, when the prepared surface is crusted, or when the ground is frozen, wet or otherwise in a non-tillable condition. The addition of water may be required to render excessively dry soils tillable.

Equipment for applying seed hydraulically shall be designed for this purpose. The equipment shall be capable of mixing and pumping the water, seed mixture, mulch and fertilizer uniformly over the area to be seeded. Power driven agitators shall be provided to keep the mixture uniform during the application.

4. COVERING SEED.

Care shall be exercised during covering operations to preserve the line, grade and cross-section of the seeded areas so that areas adjacent to pavement, walks, etc., are not left higher than the paved surface. The seed bed shall be compacted immediately after sowing. Compaction shall be done with a cultipacker, light roller or approved drag. The weight (mass) of the roller or drag needed shall be determined by the Contractor according to the type and physical condition of the soil. Rolling or covering of seed may be omitted when both seedling and mulching are hydraulically applied.
5. MULCHING.
Mulching shall be applied in accordance with the requirements given in Section 656. Seeded areas shall be covered with mulch within 48 hours after seeding. Mulching will be measured and paid for separately under Section 656.

6. SOIL AMENDMENTS AFTER GROWTH.
After the required plant species have emerged and shown normal growth (usually approximately 40 days) and while the soil surface is moist, a second application of fertilizer shall be made. This second application shall be placed as a uniformly applied top dressing of 40 pounds [45kg] each of N, P₂O₅, and K₂O per acre [hectare], respectively or equivalent approved by the Engineer.

This application of fertilizer will not be required for temporary planting (Annual Ryegrass).

e) PREPARATION AND PLANTING IN ROCKY OR HARDPAN AREAS.

1. CONDITIONS FOR PLANTING IN ROCKY AREAS.
The requirements for planting in rocky or hardpan areas shall apply when the Engineer determines that the area is too rocky or compacted for plowing, diskling, and harrowing, but is sufficiently soft or shaley to permit some form of treatment.

2. INITIAL SOIL AMENDMENTS.
One half of the fertilizer and all of the lime required for the initial fertilization of soft soil shall be applied before the initial scarification.

3. INITIAL SCARIFICATION.
The fertilizer and lime shall be worked into the rocky or hardpan area by an initial scarification as directed by the Engineer.

4. COVERAGE WITH TOPSOIL.
Approximately 4 inches [100 mm] of topsoil shall be placed over the scarified and fertilized rocky or hardpan area.

5. SOIL AMENDMENTS AFTER PLACEMENT OF TOPSOIL.
The second half of the fertilizer required for the initial fertilization of soft soil shall be applied after the placement of the topsoil.

6. SOWING, COVERING, MULCHING AND FERTILIZING AFTER GROWTH.
The sowing of the seeds, covering of the seeds, mulching, and fertilization after growth of the seeds shall be in accordance with the requirements given for this work in soft soil.

(I) PREPARATION AND PLANTING ON STEEP SLOPES (2H:1V or STEEPER).

1. GROUND PREPARATION.
Planting operations may proceed without further ground preparation after topsoil spreading and tracking if the planting can be accomplished within 72 hours after the tracking operations. Tracking is the mechanical roughening of the slope surface. Tracking shall be accomplished by the movement upslope and downslope (not along the slope) of heavy equipment that operates on tracks.

2. INITIAL SOIL AMENDMENTS.
One half of the fertilizer and all of the lime required for the initial fertilization of soft soil shall be applied hydraulically.

3. SOWING.
The sowing of seeds shall be in accordance with the requirements given for this work in soft soil with the exception that hydraulic seed application is required.

4. MULCHING.
Mulching shall be applied in accordance with the requirements given in Section 656. Seeded areas shall be covered with mulch within 48 hours after seeding. Mulching will be measured and paid for separately in accordance with the requirements given in Section 656.

5. SECOND APPLICATION OF FERTILIZER AFTER MULCHING.
Half of the fertilizer required for the initial fertilization of soft soil shall be applied hydraulically approximately 40 calendar days after mulching.
6. THIRD APPLICATION OF FERTILIZER.
A third application of fertilizer shall be made approximately 40 calendar days after the second application of fertilizer. This application shall be placed hydraulically as a uniformly applied top dressing of 500 pounds [560 kg] of 8-8-8 fertilizer per acre [hectare] or equivalent approved by the Engineer.

(g) SEEDING IN STUBBLE.
The seeding in stubble method of planting shall be used to establish permanent species when initial vegetation establishment occurs during a season that is not optimal for the permanent planting. Dates for seeding in stubble are designated in the seed mix tables in Section 860.

This method requires that the existing vegetation be mowed to a height of approximately 3 inches [75 mm] or sprayed with an approved herbicide, or both, to retard further growth. The area shall then be lightly scarified by disking or other approved method to prepare a suitable seedbed. The initial fertilization, sowing of the seeds, covering of the seeds, and fertilization after growth of the seeds shall be in accordance with the requirements given for this work in soft soil. Additional agricultural lime application will not be required for seeding in stubble. Mulch may be applied to bare areas if requested by the Contractor and approved by the Engineer. Mulch shall be furnished and paid for in accordance with the requirements given in Section 656.

(h) ESTABLISHMENT AND ACCEPTANCE.
All work shall be conducted in accordance with the requirements given in Section 665 as well as the requirements given in this Section.

The Contractor shall provide plant establishment of the required species of permanent vegetation prior to final acceptance of the project. Plant establishment shall consist of preserving, protecting, reseeding, or replanting and other such work and at such time as may be necessary to keep the vegetated areas in a satisfactory condition. All of the above work shall be performed without additional compensation, unless otherwise specified.

The acceptance of designated seeded areas will be based upon verification of a satisfactory stand of vegetative cover in the season for each species required for establishment. If a satisfactory stand of desired vegetation is not established, the area shall be re-seeded after appropriate soil preparation and re-established without additional cost to the Department.

A satisfactory stand of vegetative cover shall be defined as a cover of living plants, after true leaves are formed, of the required seed species designated for establishment. Generally an 80% coverage will be considered acceptable. Should the Contractor protest the determination of satisfactory stand based on visual analysis, a random sampling of 5 samples per acre [0.4 ha] using a square yard [meter] template may be executed to determine the percent coverage. There should be no areas void of the required species larger than 4 square feet [0.4 square meter]. Payment for seeding, fertilizer, and agricultural limestone and mulch will be made in full upon satisfactory application. Payment for additional fertilizer and agricultural limestone will be made in accordance with the requirements given in Article 652.05. Payment for seeding may be withdrawn for areas where vegetative cover is not established or not satisfactorily maintained and fertilized after establishment.

Every effort should be made to establish vegetation of permanent species in accordance with the seasonal requirements shown for each species in Section 860. Areas where the season and required seed mix cause the method of seeding in stubble to be necessary for the establishment of a permanent plant will not be considered acceptable until vegetation of a permanent species is satisfactorily established. The project will not be accepted for maintenance prior to acceptable establishment of vegetation after seeding in stubble.

Payment will not be made for areas of unsatisfactory stands of vegetative cover, the repair of areas damaged by the Contractor, or for the repair of washes in areas where sufficient erosion control measures are available to the Contractor.

Requests from the Contractor for payment for areas of unsatisfactory stands of vegetative cover will not be considered by the Construction Engineer without the submittal of documentation of absolute adherence to the requirements for the application of topsoil and for the establishment of the vegetation.

(i) MOWING.
The Contractor shall mow all seeded areas of medians, shoulders and front slopes as directed or permitted by the Engineer. The Contractor shall mow when the vegetation becomes a hazard to motorists and as necessary to promote growth of the required permanent plant. Mowing shall be
performed in a manner that will not cause unnecessary damage to desirable vegetation. Mowing of
lespedeza and tall fescue shall not be done until after these plants have produced mature seed.

Mowing shall generally be done twice each year as directed or permitted by the Engineer and
when vegetation has grown to a height of 16 inches. If the project is being considered for acceptance
for maintenance by the Department and has been mowed within the last 2 months, additional mowing
will not be required.

The Contractor shall mow, cut and trim as close as practicable to all fixed objects, exercising
extreme care not to damage trees, plants, shrubs, delineators and other appurtenances. Damage to
trees, plants, shrubs, delineators or other appurtenances shall be repaired or replaced immediately by
the Contractor at no cost to the Department. The Engineer will determine if the damage must be
corrected by repair or replacement.

652.04 Method of Measurement.

(a) SEEDING.

Seeding will be measured in acres [hectares] parallel to the seeded surface regardless of the
method of establishment.

(b) MOWING.

Mowing will be measured in acres [hectares] parallel to the mowed surface. Each separate
mowing of the same location will be measured separately.

652.05 Basis of Payment.

(a) UNIT PRICE COVERAGE.

Seeding will be paid for at the contract unit price per acre [hectare] which shall be full
compensation for all ground preparation, furnishing, preparing, soil amendments (fertilizer and lime),
seeds, including water needed in mixing, planting, establishing, and maintaining of the seeded areas
until final acceptance, and for all materials, equipment, tools, labor, and incidentals necessary to
complete the work. Additional fertilizer or agricultural limestone ordered by the Engineer will be paid
at the verified invoice price plus 15 percent. The seeding item will be used for payment for
establishing vegetation regardless of the methods used for planting and establishment. Vegetation
established outside of the normal planting season (annual ryegrass) will be paid for at the contract
price for seeding. Vegetation established by seeding in stubble will also be paid for at the contract
unit price for seeding.

All mowing, cutting and trimming, including mowing required for seeding in stubble will be
paid for at the contract unit price bid per acre [hectare] which shall be payment in full for the mowing
including equipment, labor, and incidentals necessary to complete this item of work. The contract unit
price shall also be for mowing required when the vegetation becomes a hazard to motorists and as
necessary to promote growth of the required permanent vegetation.

(b) PAYMENT WILL BE MADE UNDER ITEM NO.:

652-A Seeding - per acre [hectare]
652-C Mowing - per acre [hectare]

SECTION 654
SOLID SODDING

654.01 Description.

This Section shall cover the work of furnishing solid grass sodding in designated locations
throughout the construction limits of the work. Basic work consists of ground preparation, furnishing
and placing required soil amendments, and furnishing and installing sod and maintenance of the sod
including watering of the sod for the life of the contract.

654.02 Materials.

All materials shall conform to the appropriate requirements of Section 860.

654.03 Construction Requirements.

Areas to receive sod shall be prepared in accordance with the requirements for planting
vegetation in soft soil given in Section 652. The requirements for ground preparation and the
application of initial and final amendments to the soil shall apply to this work. The sod shall be placed on the prepared and amended soil with no gaps between the individual sod pieces or rolls. The entire sodded area shall be rolled with a weighted roller to set each piece of sod into the topsoil. Staking or stapling of sod is required on slopes 3:1 or steeper and all channel applications and shall be done without additional compensation. When required by the plans, Mulch Control Netting shall be applied in accordance with Section 656 and shall be a subsidiary obligation.

The Contractor shall water, fill washes, and otherwise protect and maintain all sodded areas until the contract is accepted for maintenance or until the bond is released if a bond was required. Payment will not be made for areas of unsatisfactory stands of vegetative cover, the repair of areas damaged by the Contractor, or for the repair of washes in areas where sufficient erosion control measures are available to the Contractor. Requests from the Contractor for payment for areas of unsatisfactory sod will not be considered without the submittal of documentation of absolute adherence to the requirements for the establishment of the solid sodding.

The requirements given in Section 652 shall apply to the determination of a satisfactory installation of solid sod except that a 95% living coverage will be required.

654.04 Method of Measurement.
Solid Sodding will be measured in square yards [square meters] from measurements made parallel to the surface of the area covered by the sod.

654.05 Basis of Payment.
(a) UNIT PRICE COVERAGE.
Solid Sodding will be paid for at the contract unit price, which price shall be full compensation for furnishing the sod, ground preparation, planting, soil amendments, rolling, watering, and maintaining the sod until acceptance of the contract, and for all other materials, equipment, tools, and labor necessary to complete the work. Additional fertilizer or agricultural limestone ordered by the Engineer will be paid at the verified invoice price plus 15 percent.

(b) PAYMENT WILL BE MADE UNDER ITEM NO.;
   654-A Solid Sodding - per square yard [square meter]

SECTION 860
ROADSIDE IMPROVEMENT MATERIALS

860.01 Seed.

This Article (860.01) shall be replaced by the following:

860.01 Seed.

(a) PURE SEEDINGS.

1. TESTING AND CERTIFICATION.
Seeds shall be certified by an Official Seed Certifying Agency. Seeds shall have been tested within nine months prior to use. Each kind of seed shall be separately packed and delivered to the project in a seed-tight bag. Each bag shall bear a tag or label bearing the seal of the Official Seed Certifying Agency.

The analysis of the seed (% pure seed, % germination, date tested, etc.) shall be attached to each bag. Seed shall be at least 95% pure seed of the required type. Seed for lespedezas shall have a minimum germination rate of 80%. Seed for all other species shall have a minimum germination rate of 85%.

2. SAMPLING AND VERIFICATION TESTING.
Samples of seeds may be taken at any time by the Engineer. Tags or labels that have the analysis of the seeds will be placed with the samples taken by the Engineer. The samples will be stored by the Engineer until a satisfactory stand of grass is obtained. If it is apparent that germination or other problems exist in the establishment of the ground cover, the samples will be submitted to the Alabama Department of Agriculture for testing.
3. HULLED AND SCARIFIED SEEDS.
Bermudagrass may be either hulled or unhulled as shown in the table of seed mixes.
Sericea Lespedeza shall be hulled and scarified.
Annual Lespedeza (Kobe), White Dutch Clover, and Reseeding Crimson Clover shall be
hulled.

4. COATED SEEDS.
Coated seeds will not be accepted for planting unless noted otherwise on the plans.

(b) SEED MIXES DESIGNATED FOR AREAS OF FREQUENT MOWING.
Some seed mixes are designated for "AREAS SUBJECT TO FREQUENT MOWING". Areas subject
to frequent mowing are roadway shoulders, medians and front slopes flatter than 3:1 extending 60 feet
beyond the edge of pavement or to the toe of the front slope whichever is less. All other areas
designated for seeding shall be considered to be "AREAS NOT SUBJECT TO FREQUENT MOWING".

(c) PLANTING ZONES.
The State of Alabama is divided into three planting zones as shown in the following table:

860.05 Solid Sod.

This Article (860.05) shall be replaced by the following:

860.05 Solid Sod.

(a) GENERAL.
Solid sod shall be obtained from sources of the Contractor's selection meeting with the approval of the Engineer. The Contractor, without extra compensation, shall furnish such material and construct and maintain hauling roads necessary for obtaining the material.

The sod shall be of common Tiflawn Bermudagrass, Centipede, Myers Zoysia, Zoysia Matrella, or other approved types of native or adaptable grasses, suitable for growing in the locality of the work.

(b) PROCURING AND HANDLING SOD.

1. GENERAL.
All sod shall be procured from areas where the soil is fertile and contains a high percentage of loamy topsoil and where the grass is well rooted and full grown and from areas that have
been grazed or mowed sufficiently to form a dense turf. (Approximately 2 inches [50 mm] in height at the time of lifting). The soil shall be free from obnoxious weeds or other grasses and shall not contain any matter deleterious to its growth. Solid sodding shall be living or seasonally dormant during the cold or dry season and have an established root system capable of continued growth. Solid sodding grown with a geotextile backing is acceptable for use at the Contractor’s option with no additional compensation. Solid sodding used in channel applications shall be rolled sod.

2. HARVESTING.

Mechanical devices, such as sod cutters, may be used for cutting the sod into strips, blocks or rolls at least 12 inches [300 mm] wide, except when sod strips are specified, then they shall be at least 3 inches [75 mm] wide. Depth of sod cutting shall be such that approximately 3/4 of an inch [19 mm] of soil is removed with the turf. Care shall be exercised at all times to retain the native soil on the roots of the sod during the process of excavating, hauling, and planting.

3. HANDLING.

Sections of sod shall be cut away below the root line and shall be lifted and loaded in such a manner that no tearing or breaking will occur, and unloaded by hand or approved mechanical method. Dumping from vehicles will not be permitted. All broken or dried sod shall be rejected and removed from the job.

4. CONTROL.

The sod shall, in general, be transplanted within three days from the time it is harvested. However, if held in temporary storage, the sod shall be spread in a shady location with the grass side up. The sod shall be sprinkled with water when and as directed. If required, it shall be covered with moist burlap, straw, or other acceptable material. Any sod permitted by the Contractor to dry out may be rejected whenever, in the judgment of the Engineer, its survival, after placing, shall have been rendered doubtful and no payment for such sod shall be made.

In no event shall more than 10 days elapse between the cutting and planting of the sod.

Prior to permitting sod planting, the Engineer will inspect the sod stacks for retention of native soil. Such may be accomplished by measuring the stack height and determining the average layer thickness (3/4 of an inch [19 mm] minimum).

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:
   - An existing published wage determination
   - A survey underlying a wage determination
   - A Wage and Hour Division letter setting forth a position on a wage determination matter
   - A conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed. With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

   Branch of Construction Wage Determinations
   Wage and Hour Division
   U.S. Department of Labor
   200 Constitution Avenue, N.W.
   Washington, D.C. 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

   Wage and Hour Administrator
   U.S. Department of Labor
   200 Constitution Avenue N.W.
   Washington, D.C. 20210

The request should be accompanied by a full statement of the interested party’s position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after awarded only as provided in the labor standards contract clauses (29 CFR 5.5 (a) (1) (ii))

In the listing above, the "SU" designation means that the rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.
